Goals

- Bring together students from different areas of research
- Study topics outside of our immediate research areas
- Foster a collaborative environment among TCIPG students

What to Expect

- Invited lectures
- Reading discussions
  - Topics include CS and Power
  - Papers announced 1-2 weeks before discussion day
  - Come prepared to discuss aspects that:
    - You understood
    - You had difficulty understanding
      (Some papers *will* be outside your area of expertise)
  - Discussion is a collaborative responsibility!
- Pass/Fail credit based on attendance and participation

Student Introductions

Please tell us..

- Your name
- Where you go when you go home for vacation
- Your superpower of choice
- What you study or research
